FOREST FIRE PROBLEM SERIOUS

The year 1947 was one of the worst periods of drouth and forest fire occurrence in eastern United States history. Lack of water ruined crops, lowered water levels and dried up brooks everywhere. Three months of deficient rainfall and abnormally high temperatures resulted in many fires which were mostly well controlled and kept within bounds. Only the high winds beginning on October 23rd caused a few fires to escape beyond immediate control. These few fires resulted in burning some 15,000 acres and the loss of 63 or more buildings in four New Hampshire towns.

All October fires were costly. They burned deeply in the ground and required day and night patrol of large crews of men until the rains came late in October. Towns which escaped from serious fires might easily have been in the midst of the most serious conflagrations we had.

Governor Dale closed the woods effective at midnight of October 15th. With the blow-up of October 23rd, a second proclamation closed all back roads and authorized towns to inaugurate patrol. The effect of this was to cut down subsequent fires for the rest of the dry period.

Local fire warden forces performed an admirable job to hold the more than 200 fires that occurred during this October period. Many men were taxed to the utmost as the emergency continued. To them and all these who did their work, the people of New Hampshire owe a debt of gratitude. The state forest fire control agency based on local town wardens and town crews wherever adequately equipped rose to the occasion and met the test in whatever town their services were needed.

It is now time to take stock everywhere of our fire fighting facilities for the season ahead and to make them adequate where necessary. To this end town fire plans and training programs for wardens, deputies and other key men in each district are being arranged or in progress. If equipment and tools are insufficient properly to equip the available man power in each community with the right tools for the job, they should be provided for at once. The yearly addition of fire tools to the town supply will generally need to be built up. The state sells tools to the towns and shares one-half their cost. Good equipment is important and can help greatly to keep both damage and fire costs at a minimum.

For many years we have requested our wardens not to issue burning permits except on rainy days. This regulation will be in effect again this year as it is one of the best means of assuring such fires from getting out of control. Nine out of every ten fires can be prevented, 98 percent of all fires being due to human carelessness. Be sure to get a permit for any fire in or near woodland when the ground is free from snow. Be sure your fires are always out before you leave them. Help us in getting the travelling public to keep from throwing out lighted matches or cigarettes. Be careful of all fires in or near woodland.

Merton A. Webber

District Chief

TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the town of Sandown in the County of Rockingham in said state qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said Sandown on Tuesday, the ninth day of March next at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers for the ensuing year.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To see if the town will vote to accept Town Road Aid: State to contribute \$1,364.74, Town to raise an estimated amount of \$375.

4. To see if the Town will vote to authorize the selectmen to borrow money in anticipation of taxes.

5. To see if the town will vote to authorize the selectmen to administer or dispose of, at either public or private sale, property taken through Tax Collectors Deeds.

6. To see if the town will vote to allow the school building committee to remodel, re-equip and recondition the Community Hall in general accordance with posted plan suggested by the State Board of Education so that in addition to the present services rendered by the hall, it may serve also as a two room centralized school house for the district.

7. To authorize the selectmen to make with the school board whatever arrangements deemed necessary for the maintenance and operation of the new Community Hall School Building.

8. To see if the town will vote to appropriate a sum of money to build a four stall bathhouse at Phillips Pond.

9. To see if the town will vote to appropriate a sum of money to purchase a police uniform for the Chief of Town Police Officers.

10. To see if the town will vote to appropriate \$25. to defray the expenses of investigating veterans' burial markers and replacing those found missing. The work is being accomplished by The Lester W. Chase Post, No 9, American Legion, Derry, N. H.

11. To see if the Town will vote to raise and appropriate the sum of \$500. to purchase equipment for fire protection, and to choose a committee of seven to study fire protection needs. The appropriation to be expended by authorization of the Selectmen on recommendation of the committee.

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the town of Sandown qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the fifth day of March 1948, at eight o'clock in the evening, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.

7. To choose Agents, Auditors, and Committees in relation to any subject embraced in this warrant.

8. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the school board in its annual report.

9. To see if the district will vote, pending acceptance by the town, to remodel, recondition and re-equip the Community Hall in accordance with posted plan suggested by the State Board of Education so that in addition to the present services rendered by the hall, it may serve also as a two room school house for the district.

10. To see if the district will authorize the school board to issue ten year serial notes or bonds not exceeding \$12,000. in amount upon the credit of the district in accordance with the municipal bond act chapter 72 and as amended in the laws of 1947 chapter 156, the discretion of fixing the time and place of payment of such notes or bonds and the rate of interest thereon and of providing for the sale thereof to be delegated to the School Board; the sum or any portion thereof must be expended for the remodelling, reconditioning and re-equipping of the Community Hall so that in addition to present services rendered by the building, it may serve also as a two room school house for the district.

11. To see if the district will vote to continue the School Board, the Board of Selectmen and Mr. John J. Pinard as a building committee with full responsibility and authority to pursue the proposed work in accordance with posted plan suggested by the State Board of Education and with full authority to contract and order payment of bills in relation to the proposed project. The

duties of this committee shall terminate upon the acceptance by the school district of the committee's report of completion which shall include a detailed and audited financial accounting of all expenditures.

12. To transact any other business that may legally come before this meeting.

Given under our hands at said Sandown this 20th day of January, 1948.

SUPERINTENDENT'S ANNUAL REPORT

To the Citizens and School Board of Sandown:

Following is my first report as your new Superintendent. As I was elected to this position only four months ago most of the statistics will cover Mr. Osgood's last year as Superintendent.

Sandown is fortunate in having two teachers who work for the best interest of the child in molding better citizens for tomorrow. Mrs. Allen is again with us at the Pine School. While Miss Joan Moody replaces Mrs. Sinskie at the Clark School. Public assemblies put on by both schools have been well attended and enjoyed by townspeople.

The Clark School is in very poor repair and if operated next year much expense will be necessary. The playgrounds at both schools are very inadequate and the lack of playground equipment works a hardship on the teachers. Sanitary conditions are not up to standard in either school. Sandown like many towns is at the crossroads in education. Improvement of some sort is imperative.

Pupils in all grades except grade one have been given Standard Achievement tests. The results show that the pupils are doing as well as in previous years.

In closing, I wish to express my appreciation to

the School Board, teachers, pupils and citizens of Sandown for their hearty cooperation.

Respectfully submitted,
Arthur W. Danielson
Superintendent

of Sandown, N. H.

Of the 32 pupils examined during the school year
1946-1947, the following cases were found and treat-
ment was given as indicated:

	No.	No.	No.
	Cases	Receiving Treatment	Corrections or Improved
Underweight	3	3	
Nervous condition	2	2	
Defective teeth	6		4
Diseased tonsils	2		2
Enlarged glands	3	3	
Hearing	3	3	
Pediculosis	2		2
Skin diseases	9		9
Number vaccinated	32		

Health program of the Sandown Schools consist
of yearly physical examinations of eyes, ears, throats,
etc. This examination is followed up by home calls to
secure corrected work which is needed.

Schools are visited every other week, for inspec-
tion and anything else which requires attention. In
cases of epidemics the nurse is there daily.

We are fortunate in having an unusual healthy
group of school children and very solicitous parents.

The cooperation of the parents and school officials
is greatly appreciated.

Respectfully submitted,
Constance Cooper, R. N.

MUSIC DEPARTMENT

To the Superintendent and the School Board of Sandown, New Hampshire:

I hereby submit the annual report of the Music Department.

Music should correlate with a broad cultural development. It should never be thought of as a specialized, limited scheme of training. This, therefore, means a definite correlation with other subjects. It has been the aim of the Music Department to carry out this plan in an enjoyable and interesting fashion.

In Sandown, the children have been taught Early American dances, folk tunes of many countries, and, at the same time enunciation and understanding of the musical content have been stressed.

The pupils of both schools will join forces in the spring to give an operetta. This performance will be for the public and will include all students.

Both schools are badly in need of a piano. It would be greatly appreciated if this matter could be taken care of by some individual or organization that might have a piano not being used at the present time.

In conclusion, may I express my appreciation to those who have made this school year such a pleasant and worthwhile venture.

Respectfully submitted,
Prudence Hayes

REPORT OF THE INTERIM COMMITTEE ON SCHOOL HOUSING

Introductory

In accordance with the article of warrant passed at the regular district meeting of 1947, the committee has met a number of times during the year to discuss the

problem. Subcommittees of one or two individuals were appointed by the chairman, to work out details of information and to hold conferences with representatives of the state Board of Education concerning its more specific requirements. Your committee has endeavored to establish what would be the best possible solution to the school housing problem. Enough work has been done, it is felt, to fix the course which should be adopted by the district.

Five possible solutions to the housing problem were considered by your committee and they are presented with recommendations in the following discussion.

Present Schools

Allowing housing conditions to remain as they are is, in the opinion of your committee, out of the question. For a period of at least twenty years dissatisfaction with our school housing system has been expressed in more than one quarter. These school houses constitute a hazard to health due to lack of adequate water supply and waste elimination systems, two admittedly major problems of everyday living. The question of unnecessary fire hazard has been raised repeatedly.

Our State Board of Education has long advocated the abolition of these inefficient one room school houses and in the last ten years has succeeded in removing five hundred of these outmoded buildings throughout the state. At one time there were about twenty-eight hundred such buildings in the state and due to the efforts of the state board only about two hundred of these buildings now remain. The tendency is to forego the little one room school house of the past in favor of structures more attuned to the educational requirements of the present. Towns all about us have

already built fine schools or are now actively planning new or modified structures for early construction. Some have voiced the opinion that this is not the time to make any changes. Apparently the same philosophy has been applied for the past twenty years or more in Sandown, with the very unsatisfactory result that we are now facing.

Your committee, therefore, recommends that something material be done this year to improve our present inadequate school housing.

Centralizing Present School Buildings

This solution of the problem presupposes that the present one room school houses are in themselves acceptable for our modern educational requirements and that their only defect is one of location. It presupposes that, if these buildings were removed from their present situations and placed together in a more central position, such as the Seeley property contiguous to the town cemetery, all requirements would be met. However, such is far from the actuality. It must be remembered that these one room school houses were built at a time when our system of education was in its evolutionary stages and that these buildings were not constructed with any consideration for our present day requirements. These buildings represent a period in education which has practically disappeared.

It might be added, however, that even if the buildings were acceptable, there is considerable doubt as to whether they could be moved to a Central location without considerable damage to buildings and property due to the narrow road clearances.

It would be advisable, therefore, by a considerable margin, to leave the present school buildings just where they are and sell them. This will provide a cash income of about two thousand dollars and will, of

course, increase our taxable property by the same amount.

Move and Remodel the Railroad Station

Much cannot be said for this possibility. The building can be moved to the Seeley lot has been suggested. However, most of the arguments against the moving of the school houses apply more so in this case.

The building, in its original layout and construction, was built with no thought whatsoever for educational purposes and consequently would have to be completely reshaped as well as moved.

Your committee recommends that this idea be completely discarded as impractical and, of course, costly. Two builders consulted on the matter stated that no one in their opinion would accept the responsibility of attempting such an impractical proposition, far less offer an estimate on the cost.

New School Building

During conferences with Mr. Farnum of the State Board of Education, detailed plans of proposed and finished school houses and their estimated and actual costs were presented and discussed. Costs of frame structures varied from ten to twenty thousand dollars. Brick construction varied from ten to forty thousand dollars. Adjusting these costs to present day price levels and to local conditions, we estimate that a fully equipped framed two room school would cost not less than twenty thousand dollars and one of brick construction would cost more.

The present net debt limit of Sandown is about seventeen thousand dollars which amount would hardly provide for a suitable framed structure. Therefore, chiefly because of high initial cost and our limited borrowing power, a new school is definitely out of the

question not only for this year but for a number of years to come.

Remodel Community Hall

Although a new school building is out of the question, the principle of a consolidated, centrally located school house need not be. The idea of using our Community Hall for a consolidated, centrally located two room school retains practically all the desirable advantages of a new building. The Community Hall, although maintained for constant use, is actually used a small part of the year. This building represents an investment now valued at ten thousand dollars, yet the returns from the investment have consistently been small and in latter years actual net losses have been recorded. Our Hall apparently intended to provide for increasing community activity is slowly but surely falling into disuse and will eventually, if the present downhill trend continues, become a complete loss. Yet with minor changes and considerable re-equipping the lower floor of the hall could be converted into a busy active and very useful two room school.

It was the unqualified opinion of the State Board of Education that the hall should be used if space requirements would permit it. A subcommittee set up a scaled plan of both floors and submitted the same to Mr. Farnum of the State Board of Education for space study with the proviso that none of the present services and facilities be sacrificed in whatever layout the Board may recommend to the committee. The result of Mr. Farnum's study is a plan which has been approved by your committee as a very practical one. In addition to the changes proposed within the building, a room will be added on the easterly side of the hall to provide for a library, a chain link fence will be provided along the westerly side of the road to insure the safety of the

children at play; and a playground will be developed at the rear of the building.

It is estimated that the cost of the remodeling and re-equipping will amount to about twelve thousand dollars at the outside and that the cost of maintenance of the entire building will be about one thousand dollars yearly. It should be added however, that the maintenance will be of a higher order than that now provided either the present school buildings or the community hall.

Since the present maintenance for all town buildings is in the vicinity of seven hundred dollars per year, the net increase in this item would amount to three hundred dollars per year. On the basis of ten year serial notes or bonds at three percent, the debt payment for the first year would amount to approximately eighteen hundred and sixty dollars thus increasing the tax rate about forty-eight cents per hundred at present valuation. Although, we are not in a position to figure the exact amount, it is known that due to consolidation, additional state aid will be extended.

It has been stated by some members of the district that the town has not the right, under the terms of the original property grant, to use the Community Hall for other than a town hall. Let it be emphasized here that the Community Hall Association sold the structure and surrounding land to the town for the sum of one dollar with the only provision that if the town saw fit to sell the property the proceeds from the sale "shall be devoted to the educational purposes of said town."

The committee unanimously recommends that the Community Hall be remodelled and re-equipped in general accordance with the plan posted with your school warrant. To this end, articles 9, 10, and 11 have

been inserted in the school warrant, and articles 6 in the town warrant for favorable action.

Respectfully submitted,
